

CONSULTING, TRAINING AND CAPACITY BUILDING OF ENVIRONMENTAL MANAGEMENT

With a team of senior domestic and foreign experts in environmental management, sustainable development, governance and organizational development, CECR has been carrying out environmental management consulting, training and improving capacity-building activities for state agencies, localities, and businesses. CECR aims to be a Center of Excellence for services and training related to environment and climate change adaptation.

Since 2017, CECR has accompanied Hoan Kiem District People's Committee in developing and implementing environmental protection plans through district-level environmental management training courses.

CECR is currently accompanying the Da Nang Department of Natural Resources and Environment in capacity building for environmental officers in the implementation of the project "Building Danang into an Environmental City, period 2021 - 2030"

Center for Environment and Community Research (CECR) has been involving passionate scientists, staff, and specialists in researching and implementing projects on environmental protection and community-based climate change adaptation. Accordingly, our work is contributing to ensuring a healthy living environment for the present and the future.

Mission: Contributing to ensuring a healthy living environment for the present and the future. We are pioneers in water conservation, waste management, effective climate change adaptation, and gender equality promotion.

Vision: To be a reliable and pioneering partner in the application of digital technology to connect state agencies, international organizations, businesses, and the community to collectively protect the environment and adapt to climate change.

Core values: Networking – Dynamic – Inspiration – Learning – Think tank & Innovation

Main activities areas: Water conservation; Waste value chain management; Gender and environmental protection, climate change; Environmental education; Consulting, training and capacity building of environmental management; Corporate Social Responsibility (CSR) for the environment.
